

Lecxci Leather Crossbody Purses Clutch

I used to carry a huge purse ... basically, a tote bag. And it was always FILLED with well, everything. My shoulder and back ached from lugging it everywhere. I decided to go in the opposite direction and downsize two years ago. And I haven't looked back. This little clutch is durable, goes with everything (although I do switch bags if I'm going somewhere "fancy") and has plenty of space for the essentials -- phone, lip balm, keys, credit cards and license, pen, small notepad, money/change and, of course, about 25 random receipts. Mine is two years old and going strong.
